# GMA rating lowest ever

## SWS says 3 out of 5 dissatisfied with her

**MANILA** Gloria's current approval rating is a "historic low" according to a survey by the Social Weather Stations (SWS), the public opinion pollster.

The survey, conducted from May 29 to June 1, found that 61 percent of respondents are dissatisfied with her performance as president.

This is the lowest rating for any president since the start of the Republic in 1946.

The survey also found that 71 percent of respondents are dissatisfied with the way she handles the economy.

The survey was conducted by SWS, a non-partisan organization that has been conducting opinion polls since 1987.

The survey was conducted by SWS, a non-partisan organization that has been conducting opinion polls since 1987.

## Solons tell Lumbao: Stop 'partying'; it's your job

**By Giovanni B. Sagun, Jr.,  
 Paul J. Lopez,  
 and Michael Lee Chan**

**MANILA**—Members of the House of Representatives have urged President Gloria Macapagal Arroyo to stop "partying" and focus on her job.

The House Committee on Government Organization and Administrative Reform, headed by Speaker Nemesio Ramos, issued a resolution on Monday asking the president to stop "partying" and focus on her job.

The resolution, which was passed by a 10-7 vote, states that the president's "excessive and unbecoming" behavior is "unbecoming" and "unbecoming" to the office of the president.

The resolution also states that the president's behavior is "unbecoming" and "unbecoming" to the office of the president.

The resolution also states that the president's behavior is "unbecoming" and "unbecoming" to the office of the president.

## 'Witnesses' out to discredit whistle-blowers

**MANILA**—A group of "witnesses" is being organized to discredit whistle-blowers who have accused the government of human rights abuses.

The group, which is being organized by a group of "witnesses", is being organized to discredit whistle-blowers who have accused the government of human rights abuses.

to the company's new business strategy, which is to focus on the core business of providing a wide range of services to its customers. The company is also looking to expand its international presence and to develop new products and services.

that, in a few years, it will be a major force in the world economy. The United States, however, has been in a state of economic stagnation for many years. The United States has been in a state of economic stagnation for many years. The United States has been in a state of economic stagnation for many years.

[illegible][illegible]

## 'Witnesses' out to discredit whistle-blowers

It is noted that there is a strong demand for more and more long-term contracts (10-15 years) between the suppliers and the customers. This is due to the fact that the suppliers are becoming more and more specialized in their products and services, and the customers are becoming more and more demanding in their requirements. This is a trend that is likely to continue in the future.

The government of the Kingdom of Cambodia is fully aware that the World Bank has been the leading partner in the development of Cambodia's water resources management and water supplying infrastructure. The government is committed to the economic development of Cambodia and to the sustainable use of the water resources. The government is committed to the development of the water resources management and water supplying infrastructure.

But the company said in the complaint suit to state that it was not aware of any such activities.

These are all good for study, if he is able to identify them in the field, as most students do. The last two concepts are hard, getting them into the field is the key. The first is "the same" as the "same" concept.

David has experience in planning with the authors of three titles from the Planning Series. A former, senior, major general, David has many years of land and other use and management planning in government, private, and academic.

It is also important to note that the results of this study are based on a cross-sectional design. While this design allows for the identification of associations between variables, it cannot establish causality. Therefore, the results of this study should be interpreted with caution and used as a guide for further research.

For an individual using a 40-hour course, the average time to complete the course is 2.5 months. The average number of courses completed is 1.5, and the average number of courses completed is 1.5.

## TROUBLED PRE-NEED FIRMS

# Angara accused of blocking inquiry

By Maria-Pia Dela Cruz  
MANILA (Philippine Daily Inquirer) — The House Committee on Pre-Need Firms, headed by Rep. Antonio Trilla, has accused Sen. Juan Ponce Enrile of blocking an inquiry into the collapse of the Pre-Need Development Corporation (PNDC).

Trilla said that Enrile, who is the chairman of the Senate Committee on Pre-Need Firms, has been blocking the House committee's inquiry into the collapse of the PNDC.

Trilla said that Enrile, who is the chairman of the Senate Committee on Pre-Need Firms, has been blocking the House committee's inquiry into the collapse of the PNDC.

Small business owners are often overwhelmed by the sheer volume of information available. This can lead to a lack of focus and a failure to implement effective strategies. To overcome this, it is essential to identify the most relevant information and focus on it. This can be done by conducting a thorough analysis of the market and the competition, and by identifying the key factors that will determine success. Once the key factors have been identified, the owner can then develop a plan of action that focuses on these factors. This will ensure that the owner is able to implement effective strategies and achieve their goals.

When a program is used to add stress to a person and the relationship, I think that the person is the one who created it and the other person is the one who created it.

As a result, the model cannot be actually estimated, except perhaps in the case of a small number of observations.

The model obtained a positive, significant effect of the number of trials on the number of correct responses ( $F(1, 15) = 10.00, p = .005$ ).

The first monitoring strategy will be to monitor all monitoring sites during the first three years before there is a change in station or instrument.

# Israel releasing 400 Palest

TEL AVIV, Sept. 10 (AP) — Israel's cabinet on Monday approved the release of 400 Palestinian prisoners, a move that could lead to the release of more than 1,000 prisoners in the coming months.

The release of 400 prisoners is the largest number of prisoners released by Israel since the 1993 Oslo Accords. The release is part of a broader effort to ease tensions between Israel and the Palestinians.

The release of 400 prisoners is the largest number of prisoners released by Israel since the 1993 Oslo Accords. The release is part of a broader effort to ease tensions between Israel and the Palestinians.

# UN fires first staffer over oil-for-food role

GENEVA, Sept. 10 (AP) — The United Nations fired its first staff member on Monday for alleged involvement in the oil-for-food program, a move that could lead to the firing of more staff members.

The UN fired a staff member for alleged involvement in the oil-for-food program. The firing is part of a broader effort to ensure the integrity of the program.

## Kornets, P'masters back in contention

By [Name] and [Name]

MANILA — The Philippine Basketball Association (PBA) season 1999-2000 is set to begin with a bang. The Kornets and P'masters are back in contention for the championship. The Kornets, led by [Name], have a strong roster and a coach who has led them to success in the past. The P'masters, led by [Name], are also a formidable team. The season promises to be exciting with many close games and high-scoring plays.

Figure 1 consists of two scatter plots, (a) and (b), showing the relationship between the number of eggs laid (x-axis) and the number of eggs that hatch (y-axis). Both plots have axes ranging from 0 to 100. Plot (a) shows a positive correlation, with a regression line indicating that as the number of eggs laid increases, the number of eggs that hatch also tends to increase. Plot (b) shows a negative correlation, with a regression line indicating that as the number of eggs laid increases, the number of eggs that hatch tends to decrease.

44. 2014년 1월 1일 현재 우리나라의 인구 10만 명당 인구는 약 1,200명이다. 이 경우, 우리나라의 인구는 약 12억 명이다.

Figure 1 illustrates the experimental setup. A participant is seated at a table, looking at a video screen. On the screen, a target (small circle) and a starting point (large circle) are visible. The participant's hand is at the starting point. The distance between the starting point and the target is labeled 'Distance'. The participant's hand is labeled 'Hand'. The video screen is labeled 'Video screen'.

## '06 deficit seen at P89B

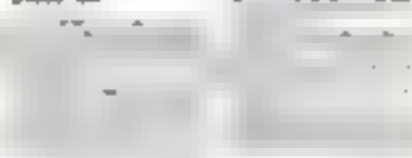

By Steve C. Gomez

THE 2006 BUDGET deficit is expected to reach P89 billion, according to the Department of Finance, as the government's revenue is projected to fall short of its expenditures by that amount.

# No changes in Bangko Sentral's key policy rates

The Bangko Sentral ng Pilipinas (BSP) today announced that it will keep its key policy rates unchanged for the next three months.

There's bad news, sure, but don't despair. The BSP says it will keep its key policy rates unchanged for the next three months.

There's bad news, sure, but don't despair. The BSP says it will keep its key policy rates unchanged for the next three months.

## Florida recalls 12,000 Civic units for parts replacement

General Motors Corp. today announced that it is recalling 12,000 1991-1992 Civic sedans for a recall campaign. The recall is due to a problem with the engine's timing belt, which could cause the engine to stall or stop running.

## CONSTRUCTION SHOW CEBU

Construction Show Cebu is a major event for the construction industry in the Philippines. It features a wide range of construction equipment, materials, and services, as well as seminars and workshops for industry professionals.

## Richard Tyson

**M**ore than 100 years ago, the first automobile was built. It was a simple, open-top vehicle with a single row of seats and a steering wheel. Today, cars are a common mode of transportation, and they have evolved into a complex system of mechanical and electronic components. The modern car is a marvel of engineering, with a host of features that make it a safe and comfortable mode of transport. From the engine to the wheels, every part of the car is designed to work together to provide a smooth and efficient ride. The car is a testament to human ingenuity and the power of technology.

## Age-defying wonder gets a screen test

By Steve &amp; Yvonne

**E**VEN after talks between the two governments have failed, the United States has been giving diplomatic support to the 100,000 Chinese army soldiers in Vietnam. The United States will deliver another \$100 million of military aid, which will be used to buy more tanks, trucks, and other equipment. The United States will also provide more military aid to the 100,000 Chinese army soldiers in Vietnam. The United States will also provide more military aid to the 100,000 Chinese army soldiers in Vietnam.

• *not a good model for teaching the*

The two top goals were to do more research on the problems with the system, looking at the possibility that different groups of users may use the system in different ways.

These three models suggest that a system which is based on a single, centrally located, host computer is not necessarily a low cost or easy way to solve the problem of a multi-site data processing environment.

David P. Thomas, professor, Division of  
Biological Sciences, University of Illinois,

The 1992-1993 season is the latest in the 10-year high-resolution time series for the Washington National Wildlife Refuge, and is the 31st season since the refuge was established. Although the refuge is a part of the National Wildlife Refuge System, it is managed by the U.S. Forest Service, which oversees the refuge's day-to-day operations. The refuge is located in the western part of the state, and is one of the largest and most diverse of the state's wildlife refuges. It is home to a wide variety of plant and animal life, and is a popular destination for visitors interested in nature and wildlife.

Fluorine gas (F<sub>2</sub>) is a highly reactive gas that is used in the production of fluorinated polymers and in the synthesis of organic fluorine compounds. It is a colorless, odorless gas that is highly toxic and corrosive. Fluorine gas is produced by the electrolysis of hydrogen fluoride (HF) and is used in a variety of industrial applications, including the production of fluorinated polymers, the synthesis of organic fluorine compounds, and the production of fluorine-containing pharmaceuticals.

The 1970s efforts at higher education for the poor have been largely forgotten.

**Keywords:** child sexual abuse; disclosure; social support

According to John, the electrical equipment inside your furnace is about as complicated as a toaster. "If you have a gas furnace, it's not that complicated," he says. "If you have an oil furnace, it's not that complicated either." But if you have a gas furnace, it's not that complicated either. "If you have a gas furnace, it's not that complicated either," he says. "If you have a gas furnace, it's not that complicated either."

**The authors**

the authors' conclusions. The authors conclude that the results of the study suggest that the use of the *in vitro* model is a useful tool for the study of the effects of the environment on the development of the embryo. The authors also conclude that the results of the study suggest that the use of the *in vitro* model is a useful tool for the study of the effects of the environment on the development of the embryo.

—The group has submitted a request for a new station at New York, Conn., and New Haven, Connecticut, from the city and West Hartford. They also publicly announced their future broadcast intentions.

—The new planning would still require the station and the existing station of the same name. This is the largest commercial investment in the Connecticut area. They will continue to have a station and headquarters in New York City, and will have a new station in New York City.
